

WIRE GUARDS

Chrome plated, 0.150" diameter, steel Wire Guards protect exit signs and emergency lights from flying objects and random acts of vandalism. Wires are spaced 2.5" apart making it easy to access fixtures to perform periodic testing. Ideal for use in gymnasiums and any area where protection from flying objects is necessary.

**WIRE GUARD ORDERING INFORMATION**

WG10	Ceiling Mounted Combination Units	13.5	12	16.5

VANDAL RESISTANT SHIELDS

Clear polycarbonate Vandal Shields provide an extra level of protection from flying objects and vandalism without obscuring the visibility of exit signs or inhibiting the performance of emergency lights. Ideal for use in schools, gymnasiums and other areas where the unit requires protection from flying objects or areas prone to vandalism.

**VANDAL RESISTANT SHIELD ORDERING INFORMATION**
